BackBeat... A Tribute - The Concert Experience

### ACT ONE: "The Early Years"

All the Best of the Beatles from The Early Years through Abbey Road. A classic, all-live, in concert experience of seeing the Beatles onstage circa 1964-1965. The Beatles as seen on the Ed Sullivan Show, in their gray tuxedo suits, all the classic gear and equipment, with possibly a few surprises thrown in of things to come.

### ACT TWO: "The Later Years"

After intermission, BackBeat... A Tribute takes the stage as "Sgt. Peppers Lonely Hearts Club Band," fictional alter-egos of the Beatles in 1967. The BackBeat's stage is now decorated with stage props recalling that era, including a Yellow Submarine. The band's costumes make them look as if they stepped off the Sgt. Peppers Album cover. During the second set the band changes costumes again and recreates the 1969 Abbey Road Album cover with more classics from the 1968-1969 era.

### Painstakingly reproduced to give their audience an authentic concert experience

- Unlike many "tribute bands", BackBeat... A Tribute uses only authentic musical instruments. Exact replicas of The Beatles' own gear can be seen on stage with them nightly. As Beatles fans will tell you, this means brand name guitars and basses such as Rickenbacker, Hofner, Gretsch, Gibson & Fender. Even the tiniest detail, such as guitar straps, cables or the size drumhead or cymbal, are duplicated to match that of the Beatles.
- Onstage guitar and bass amplifiers are authentic, fully-functioning equipment. BackBeat... A Tribute uses only VOX amps onstage, another recognizable Beatle trademark with adds authenticity to the look and sound of the show
- BackBeat... a Tribute has no visible "stage monitors" onstage. To recreate the uncluttered, vintage stage layout, sans monitors, BackBeat...A Tribute uses sophisticated, virtually invisible, in-ear wireless monitor system, (which they provide) allowing them to sing their amazing vocal harmonies without the risk of annoying feedback.

### This Is Your Ticket To Ride ... The Concert

BackBeat... A Tribute recreates the excitement and thrill of seeing the greatest rock and roll legends of all time. A fantastic and phenomenal tribute to the Beatles, BackBeat... A Tribute went for perfection from day one.

From exact replicas of the classic "Beatles" suits made to order and authentic "Beatle" boots, to wigs/haircuts and exact replicas of the Beatles instruments. BackBeat... A Tribute recreates the aura and sound of the most famous musical group in history through three phases of the Beatles career.

"I was astonished...amazing...completely true and accurate. I have seen BACKBEAT A TRIBUTE several times."
